COMPUTER INVESTIGATION & FORENSIC EXPERIENCE

In November 2009 joined the Department of Homeland Security as a Federal Contractor for the Department of Homeland Security / Transportation Security Administration. Main responsibilities include computer forensics and eDiscovery on federal government networks, desktop computers, laptop computers & cell phones. Additional responsibilities include the detection of malware / malicious code, software and equipment validation & testing, research & development, drafting new agency policies and data recovery from damaged hard drives. Other responsibilities include developing training programs for less experienced examiners.

From June 2002 through July 2009 employed by the Baltimore County Police Department and last assigned to the Vice / Narcotics Section as a Criminal Investigator and Computer Forensic Examiner. Responsibilities included criminal investigations, computer and cell phone forensic examinations and the general management of all information gathering regarding investigations where the internet, computers, cell phones and landline phones facilitated criminal activity.

Additional responsibilities included the writing of Dialed Number Recorder Affidavits and Orders, Court Subpoenas, Title 3 Electronic Intercept / Wiretap Affidavits and Orders and Search & Seizure Warrants pertaining to computers, cell & landline phones, IP addresses, email accounts and Internet user accounts.

Offered supportive assistance to less experienced officers and detectives assigned to road patrol units and other criminal investigative units when the internet, computers, cell phones and landline phones facilitated criminal activity. By request of the Baltimore County State's Attorney's Office, assisted the Baltimore County Police Department Civilian Computer Forensics Lab with all computer and cell phone forensic examinations.

Area of expertise includes forensic acquisition, recovery, investigation and analysis of data from desktop computers, laptop computers, cell phones, network and various other computer storage devices. Maintain proficient use of several computer and cell phone forensic tools and have extensive training and experience conducting cyber related investigations. Extensive training and experience dealing with the Chain of Custody of Evidence, the Rules of Evidence, Fourth Amendment Search and Seizure Issues and being an Affiant / Co-Affiant on official court documents.

Broaden computer forensic knowledge by reading daily postings on various forums and by assisting examiners worldwide that ask for assistance. Conduct research and development for IACIS and offer guidance to new candidates in the CFCE Certification Process.

Twelve years experience working as a Police Officer in a Uniformed, Undercover, Criminal Investigator and Computer Forensic Examiner capacity.

Direct experience as a Criminal Investigator and Computer Forensic Examiner investigating the crimes of Child Pornography, Internet Child Exploitation, Human Sex Slavery, Prostitution and Unlawful Gambling & Sports Book.

Supportive experience as a Criminal Investigator and Computer Forensic Examiner assisting with the investigation of the crimes of Kidnapping, Arson, Embezzlement, Homicide, Theft, Child Abuse, Harassment, Stalking, Narcotics Distribution and Internal Affairs Investigations.

Successfully investigated cases on a local and federal level and have given court testimony in Baltimore County District Court, Baltimore County Circuit Court and U.S. Federal Court.

Provided direct and supportive involvement as a Criminal Investigator and Computer Forensic Examiner for:

Baltimore County Police Department

Completed more than 250 forensic acquisitions and examinations of desktop and laptop computers, related storage media and cell phones. Provided direct and supportive involvement for criminal cases dealing with computers, cell & landline phones, IP addresses, email accounts and internet user accounts. Prepared and executed more than 150 court ordered subpoenas and search and seizure warrants where computers facilitated criminal activity. Provided court testimony relating to involvement in criminal investigations and computer forensic examinations. Consulted other detectives on how to investigate cyber related cases detailing proper methodologies. Developed templates for various subpoenas and search and seizure warrants for other units of the Criminal Investigation Division of the Baltimore County Police Department. Participated in undercover operations involving human trafficking, child exploitation, child pornography, sex offense and drug distribution cases.
